Biden Taps Poor-Home Demolisher Buttigieg for Transportation Sec, Former EPA Chief Gina McCarthy as Climate Czar

tonyodarg.wordpress.com/2020/12/17/buttigieg-transportation-gina-mccarthy

Tony Odarg December 17, 2020

If Biden's cabinet picks are any indication, and cabinet picks are always an indication, this will not be a progressive presidency.

Gina McCarthy led the EPA under Obama and her organization the Natural Resources Defense Council has sued the Trump administration over 100 times for environmental destruction, including for threatened species and energy efficiency. She will be Biden's climate coordinator in regards to federal environmental policy. The erstwhile mayor of Southbend, Pete Buttigieg will become the new Transportation secretary. This despite his war on the homeless, demolishing 1000 homes in yes than three years. While this was mostly black and brown neighborhoods, it should be pointed out these people will seek houses in more White neighborhoods, which is something none of us should want. This will lower social trust, drive down real estate prices and cause a rise in crime and the degeneration of neighborhoods. I support building low-income housing for non-Whites in the ghetto so they stay far away from White people as possible. Even in an all-White society, there will be poor and perhaps even homeless people if they are not taken care of. The solution to poverty is welfare, the solution to homelessness is building them homes. And I support sheltering the homeless and

taking care of the poor. But hey, I thought this election was a referendum on racism? Just like I have said ad infinitum, White liberals, meaning Whites who pretend to care about blacks in any capacity other than in separation, are the enemy of blacks.
